

The Carson Daily Appeal

CARSON CITY:

Wednesday, November 26, 1873.

FRIEND'S JEWELRY DISPLAY is extremely rich and tempting. By far the richest assortment of this kind of goods we have ever seen in Carson is to be seen in his show cases. There is a new case which he has just added—in the west end of the establishment—and the sets there displayed, the chains and bracelets and lockets, and alongside of these a square, upright glass receptacle for silver ware, are the richest goods ever yet brought to Carson. Of course these are of the very latest styles and finest metal and workmanship. Some silver pins and earrings and hair ornaments, of an extremely delicate and elegant sort—this also quite new to this market—are shown to the visitor. This is what is known as Italian filigree work, and is quite peculiar and ever so much more delicate than Etruscan ware. There is a perfect profusion of ladies' watches, sleeve buttons, glove fasteners, great long chains with grand opera tassels, and all that sort of thing, to say nothing of the watches and bronzes and clocks of elegant shape. All these bright things make a very attractive and glittering display when Friend lights up at night; and the attractions ought to, and doubtless will, coax many a wealthy dollar out from the pockets of prudent husbands and hot hearted lovers—and then the ladies—God bless them—how they will lay out their unspent dollars there! Read Mr. Friend's new advertisement on the north-west corner of this page and then see what he can show you at his emporium.

JACK KLEIN came to us yesterday and made complaint of an inundation of wash-house and stable water that flows down past the rear of the old Mason & Huff store house and thence out and over some lots of land—back of Sam Wright's coffin shop—greatly to the stinking up and miring down and general injury of said lots. This water flows from the carriage washings and general slops of Winnie & David's stable and from the Chinese washing establishment adjoining the same, on Carson street; and Jacob is of opinion that the Board of County Commissioners, or the Town daddies, or somebody or other in authority over such matters should cause this stream of suds and horse hydraulics to be diverted from its present course. Bent upon inspecting the premises, we went around and looked at the lay of the land, yesterday. We thought we could see how a stout armed Granger, (or other horny-handed monopolist of honesty,) could, in a half hour's time, construct a drain capacious enough to carry that soapy and equine-obsessive stream straight away from Klein's premises and right down a natural gully that takes the middle of the street and goes toward the race track. Our report is, then, in favor of the said half hour's ditching—and the sooner the better.

THANKSGIVING SERVICES are to be held at the Presbyterian Church to-morrow. The sermon is to be preached by Rev. A. N. Fisher of the Methodist establishment; and it is expected that all the Protestant congregations will join in these services. The hour of eleven is fixed for the commencement of ceremonies. We shall look for a good sermon from Bro. Fisher. He can, if he will, prepare himself to do the subject ample justice—and he has probably got himself ready to do his handiwork. This thing of a union of the service on Thanksgiving Day has long been a commendable and gratifying feature of the general harmony of this branch of the Evangelical Alliance, and we are glad to see it so well maintained. Emulating the custom of the Roundheads, who always prayed before going into battle, it will be well for the citizens of Carson to give ear to these devotional exercises before making their contemplated onslaught upon Turkey.

WE BELIEVE that Senator Jones did not come up from San Francisco on yesterday morning's train, as it was announced by telegraph he would do; but it seems from the following, which we clip from the *Chronicle* of last evening, that the other gentlemen mentioned, did make the trip, but instead of leaving the train here, went on to Virginia. Says the *Chronicle*: Ex-Governor Pollock, of Pennsylvania, and Arthur Orr, the eminent Mint Mechanist of Philadelphia, arrived here this morning, and are stopping at the International Hotel. It is understood that the object of their visit to Nevada is to inspect the United States Mint at Carson and arrange for increasing its capacity for coining silver. Governor Pollock, it is said, intimates that all the mints in the country are to be run to their full capacity during the next two years in the coinage of silver, so that when Uncle Sam is prepared to resume specie payment he will have very little difficulty in "making change."

WE ARE to have a delightful entertainment on Friday evening at the Carson Theater. Prof. E. Winkowski, recently attached to the Imperial Court at Japan, and known amongst musicians as one of the first of living violinists is to give a concert in which he will be assisted by our accomplished friend Merzbach and by two lady vocalists. We are assured by competent judges that Winkowski is a very superior performer—a master indeed; and we feel assured of a very satisfactory performance. See adv.

MINING STOCK REPORT.

GEORGE FRYER seems to have made a sort of omnium gatherum of his liquor store—for he has not only all the choicest brands of wines and whiskies and brandies and so on, but the outlandish named lot of cordials and the like that anybody ever saw. We do believe one might be served there with the very tipple that the Grand Turk smacks his unvirtuous lips over; and as to German bitters and Hungarian distillations and the funny drinkables that France produces, there they are in tanks and tuns and casks and bottles. After looking through these curiosities of George's we got into his wagon with him and he drove down to the acid factory. When we'd got there says George says he "jump" out "Arty" and out we jumped. Then, as he was getting out we mildly interposed that the horse mightn't stand right there in the middle of the yard, unhitched. "Wot, 'er?" says George,—"and he laughed the jolly laugh of a loyal Britisher. Then, having got into the factory and inhaled the sulphurous fumes George declared it smelt like 'ell! And so it does—but we hope it may prosper all the same, 'ell or no 'ell."

POLICE COURT.—James Johnson, d. d., is a three timer; and being such, he was metaphorically thrown down and sinched to the tune of \$30 by His Honor yesterday. He made no sign of the coin and so he is salted down for fifteen days—or was, when we last inspected his forlorn condition. John Armstrong, a two timer on the d. d. docket, got \$20 or ten days in the Bastille. He was serving out his time the last we knew of the matter. Wm. H. Bailey (colored,) a *chiffonier*, sued the V. & T. R. R. Co. for \$200 damages for having run over and killed his horse—but he had no case and so the verdict was for the defense. It was shown, we believe, that Bailey is a squatter on the Railway Company's land and his horse was sort of trespassing on the path of the innocent and unsuspecting locomotive at the time of his killing. Likely as not it is hard times for the old man to lose his horse, but we don't know how he can hold the railway people responsible when he is on their land.

THE S. T. SWIFT Company received their hose reel yesterday from the manufactory at Seneca Falls. This is not a very elaborate affair but is remarkably strong and capacious and in all particulars designed for service. The Swifts are pretty much prepared for active duties, now, and are only waiting for a good chance to show what their machine is good for. Nobody wishes them any better luck than we, but we hope the time is a good way off that will call for any other than a holiday squirting of theirs.

U. S. MINT.—The Coiner of the Carson Mint, coined yesterday, \$50,000 in gold and silver. Forty-five thousand of which were gold twenties, and the balance, five thousand dollars, in trade dollars.

THE EMPRESS of Japan is in the fly w-y.

THEATRICALS COMING.—A telegram from W. R. Fortier, a well-known theater man, to Johnny Moore, yesterday engages the Theater for Saturday, with the privilege of Sunday, or Monday following, as he may elect. His telegram, which came from Truckee, says he has a first-rate troupe; also that he is going to Denver. Will probably know all about the programme in good time.

THE ADELPHIS are preparing for their Winter campaign. They held their annual meeting last night and elected a new complement of officers, as follows: H. G. Parker, President; R. E. Kelly, Vice President; T. R. Hofer, Secretary; Jerry Schooling, Treasurer; Z. S. Eldridge, Floor Director. Executive Committee—Crittenden Thornton, Peter Cavanaugh, Jr., D. R. Sessions.

CONSTABLE STERN might have been seen yesterday early in the afternoon busily tugging along toward the station-house two bareheaded Chinese malefactors. Until it got to be too late to hunt him up and find out what the matter was we forgot it—so this will have to go over amongst the unfinished business. They looked like they might have been fighting—also as if they had stolen a chicken or two. Will ascertain and report.

AN OLD GENTLEMAN by the name of Whitehead died at Porter Warren's place last evening—so we learn from Mr. Depon. We are not acquainted with the particulars.

A MASONIC MEETING, or, as the Brethren term it, a called communication of the F. & A. M., has a place in another part of this paper. The Masonic eye is directed thereto.

THE PAINFUL REPORT of the death of a prominent servant of the commonwealth, which gained circulation here yesterday, was without foundation—as we learned by careful investigation.
